VS MASTIK SEALANT - I

FIRE SEALANT
Prevents the Spread of Fire

(VSPS240IS)

PRODUCT DESCRIPTION

VS Mastik Intumescent Sealant is a fire-rated sealant used to seal joints and through-penetrations. It cures to an elastomeric seal to enable dynamic movement (where required). This sealant expands
multiple times and chars without letting the fire through the joints.

SPECIAL FEATURES:

- Water-based
- Water-resistant
- Low shrinkage
- No solvents & non-halogenated
- Color - Red

SPECIFICATIONS

PROPERTY	PRESENT VALUE
Density	1.31 to 1.41 g/cm 3
Fire Rating	2 Hours
Curing Time	3-4 Hours (Touch Dry)
Shelf Life	12 months
pH	6.0 to 8.0
Application Temperature	5°C to 50°C
Humidity & Moisture Resistance	Good
Toxicity	Non Toxic
Odor	Odorless
Flash Point	None

TESTED IN ACCORDANCE WITH UL-1479, BS 476 PART 20.IS 12458, ASTM-E-814
